

Technical drawing of a circular mechanical part, likely a flange or a base plate, showing dimensions and radii. The drawing includes a central circular feature and concentric circles representing the outer profile and internal features.

Dimensions and Radii:

- Overall diameter: 150 (indicated by a vertical dimension line on the right, split into 55 and 75).
- Inner diameter: 50 (indicated by a horizontal dimension line at the top, split into 45 and 75).
- Radius R55: Indicated by a dashed line and arrow pointing to the inner circular feature.
- Radius R48: Indicated by a dashed line and arrow pointing to the outer circular profile.
- Radius R65: Indicated by a dashed line and arrow pointing to the outer circular profile.
